SIEL
 ENERGY & SAFETY

SERVICES WE CATER TO

OIL & GAS

Registered Supplier for approved spare parts, instrument, equipment, chemical, pipes and valves in the Kuwait Oil Company, Kuwait National Petroleum Company & China National Petroleum Corporation.

MILITARY SUPPLIES

Registered and approved vendor for supplies of various items approved by the U.S Military departments and their prime vendors.

POWER PROTECTION SOLUTIONS

Authorized agent for Powersonic USA and Siel Italy comprising of products like UPS and batteries, we ensure Power protection at all times and maintenance supports on finger tips. The supports from the Principals abroad is at all times for the clients.

HEAVY EQUIPMENT RENTAL

Excavators, loaders, backhoe, fork lifts, dump trucks, trailers, are available for short and long term leasing on a phone call. Efficient maintenance team is also available to mitigate the problems in operations.

REAL ESTATE & HOSPITALITY MANAGEMENT

Providing furnished offices and residential apartments, meeting international standards with 24 hours absolute security.

FOREX ONLINE CURRENCY TRADING

We provide brokerage trading solutions with major capital companies in Kuwait. You can trade through us in Forex, Gold & Silver, Oil & Gas, Agriculture & US Indices.

TO WHOM IT MAY CONCERN:

Power Sonic Corporation is a United States based manufacturer of battery technologies. The organization was incorporated in 1970 and maintains a leading position in the market. We are proud to have some of the world's largest and most discerning firms in our served markets, as long-time customers. Examples include Honeywell, Tyco, Siemens, Schneider Electric, United Technologies, Tesla, Eaton, ABB, General Electric and many more. Our brand promise is quality, service and experience.

We understand that there is some concern that we manufacture our products in our factories in China. As with other well-known international USA manufacturers such as APPLE and Schneider Electric, that manufacture products in China, we assure you that ours are manufactured to the highest quality standards.

All Power Sonic facilities are ISO9001-2015 standard certified. All our products maintain relevant certifications for electrical performance and application specific performance. Examples include but are not limited to UL, CSA, CE, IEC and seismic. Power Sonic maintains test and certification laboratories in the US and Europe to provide for technology validation, incoming inspection and return product analysis.

We pride ourselves in the quality of our product and regularly report PPM levels of less than 500 ppm for all defects including no trouble found incidents. Power Sonic maintains multiple manufacturing facilities where we are fully integrated. In all cases we demand strict adherence to our quality procedures, qualify and/or audit all facilities regularly and perform exhaustive incoming inspections to protect the consumer and our brand proposition.

Sincerely,

Craig Spencer

**Faster charging
anywhere.**

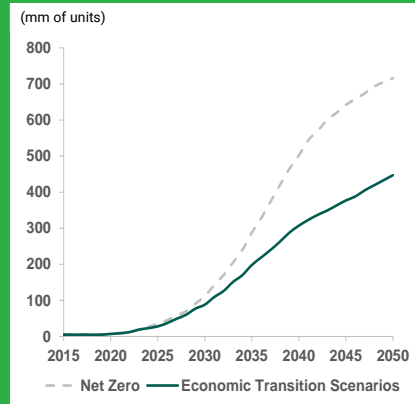

EVs are coming and they are here to stay...

Electric vehicles (EVs) are coming, and they are coming fast. The accelerated adoption of EVs is the result of government incentives, increase availability of private and public funding for EV adoption and a cultural shift towards greener and cleaner vehicles helping to reduce emissions.

EV adoption rates

EV charger demand

EVs create a huge opportunity to businesses...

More EVs means more charging infrastructure is needed, and with this comes opportunity for businesses. There are three main reasons for introducing EV charging that most businesses can't ignore.

1. It's a new way to attract and retain customers
2. It can generate new revenue streams
3. It's shows you are a leading business focused on green initiatives and sustainability - an essential part of today's Corporate Social Responsibility

THE CHALLENGE

GRID POWER

What is holding back businesses from introducing EV charging?

Many businesses are restricted by the amount of grid power they can use, making it nearly impossible to have the EV charging stations needed on site. With more and more EVs featuring increased range with larger battery capacity and faster charging rates, more power than ever is needed to charge them.

UP-FRONT COSTS

High up-front costs to upgrade the grid infrastructure to provide the power needed to enable EV charging makes it unfeasible for many businesses.

ENERGY COSTS

Unpredictable energy costs with time of use schedules, rising on-peak charges and extremely high cost demand charges.

To introduce EV charging businesses need a solution that:

- Delivers the power needed without costly upgrades to the electric grid
- Can be scaled as EV numbers grow
- Increases revenue through attracting new customers and potentially EV charging to the public
- Reduces the cost of energy used for EV charging
- Enhances the customer experience
- Helps meet sustainability goals
- Is future proof

THE SOLUTION

Highly differentiated technology that removes the barriers to EV charging

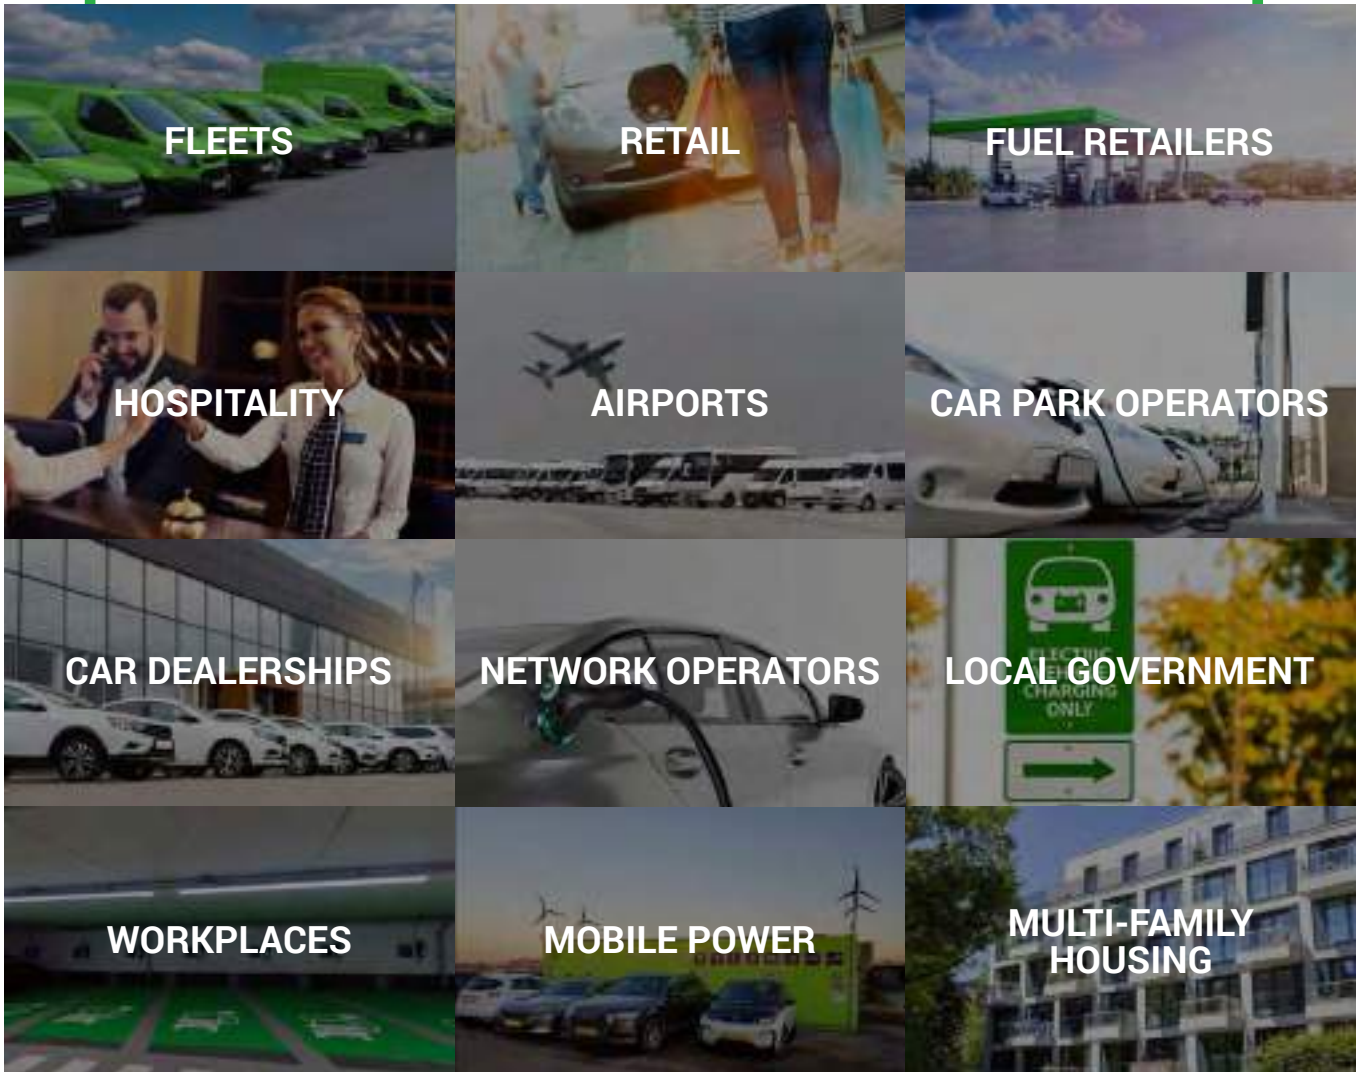

Addresses the issues of limited grid power

Optimizes energy usage to reduce costs and maximize revenue

Provides flexible business models

EV CHARGING FOR YOUR BUSINESS

EVESCO has deep expertise in the EV charging infrastructure industry, we leverage this experience to bring you the most reliable and suitable charging solutions to keep your business on track to meet your objectives.

Whatever your objectives, our team of experts will take the time to fully understand your business, challenges and opportunities.

HOW EXISTING EV CHARGERS WORK

EV chargers take their power directly from the electric grid

Limited to the number and type of chargers you can deploy based on electric grid availability

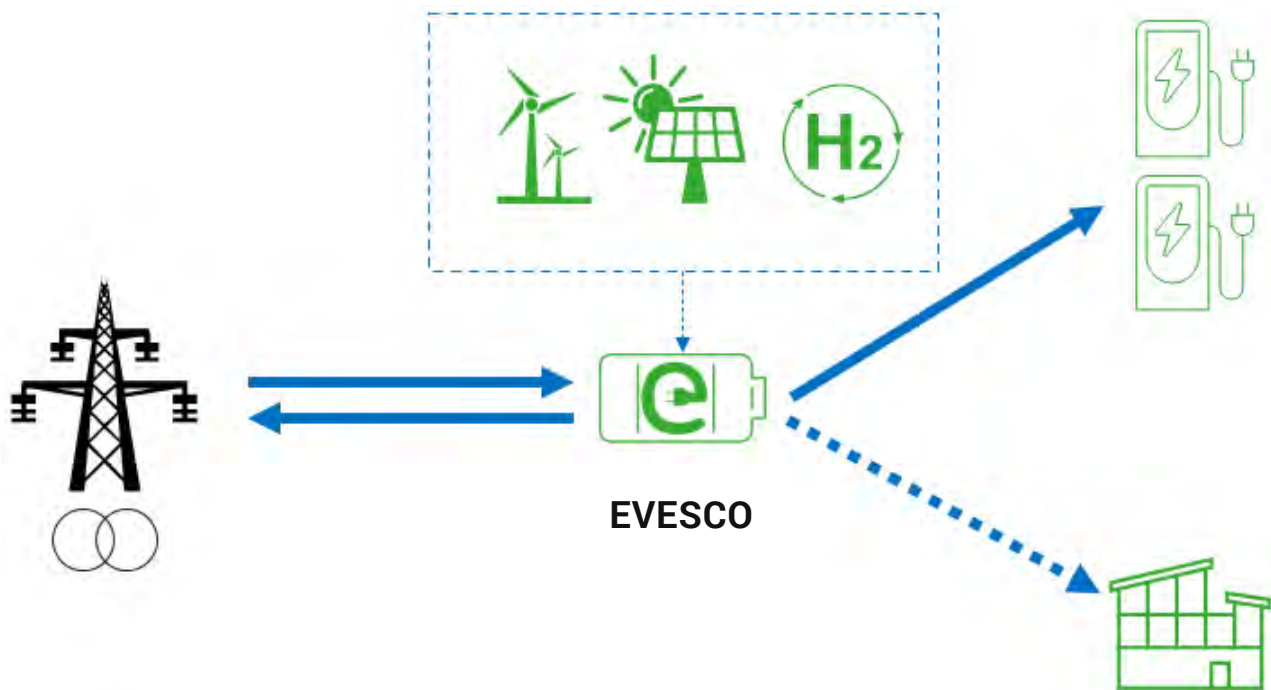

Subject to high demand charges and time of use restrictions during peak time

In a power outage the EV chargers won't work

HOW EVESCO WORKS

EVESCO takes power from the grid and/or other power generation sources, stores it in an intelligent battery system ready to be discharged to the EV chargers when needed

Delivers fast and ultra fast charging at locations with limited grid power

Reduces energy costs and maximizes revenue through optimized energy management

EV chargers will work during time of use restrictions and power outages

EVESCO can optimize energy at your business and provide backup power if needed.

evesco

ELECTRIC VEHICLE ENERGY STORAGE COMPANY

The EVESCO mission is to accelerate the mass adoption of electric vehicles by delivering sustainable fast-charging solutions, which can be deployed anywhere. Our innovative energy storage is enabling customers worldwide to build faster, more reliable, and future-proof EV charging networks, including in locations with little or no electric grid availability.

**Learn how EVESCO can help your business deploy scalable,
fast electric vehicle charging solutions that free you from the
constraints of the electric grid.**

POWERPS SONIC

CONTINUOUS INNOVATION

with:

- **TRUSTED BATTERY SOLUTIONS**
- **PRECISION METAL FABRICATION**
- **CUSTOM INJECTION MOLDING**

ABOUT POWER SONIC

The Power-Sonic Corporation is an international group of companies, with manufacturing facilities and offices across the globe.

The Power-Sonic Corporation has three divisions:

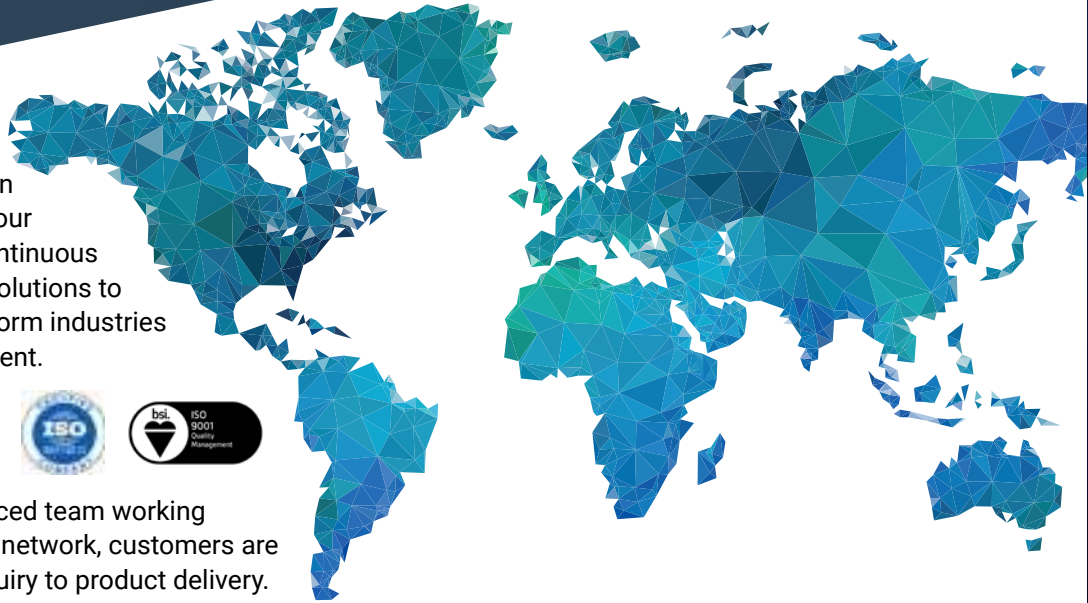

- TRUSTED BATTERY SOLUTIONS
- PRECISION METAL FABRICATION
- CUSTOM INJECTION MOLDING

Each of our companies have been operating for over 40 years, and our purpose is to go forward with continuous innovation of our products and solutions to support our customers, to transform industries and to help sustain the environment.

We are proud to hold ISO 9001 certification covering all aspects of our organisation.

With our dedicated and experienced team working alongside our global distribution network, customers are fully supported from time of enquiry to product delivery.

GROUP CUSTOMERS

All product and company names are trademarks™ or registered® trademarks of their respective holders. Use of them does not imply any affiliation with or endorsement by them.

power-sonic.com

TRUSTED BATTERY SOLUTIONS

Power Sonic has been delivering quality, reliable and innovative battery solutions worldwide since 1970. Our battery products are designed and manufactured using the latest state-of-the-art equipment and subject to the most stringent quality control. This process is key to ensuring both consistency and reliability of any product that carries the Power Sonic name.

Our comprehensive range of battery products include sealed lead acid (SLA) and lithium iron phosphate (LiFePO4) technologies, chargers and related accessories. As well as supplying a wide range of battery products we also provide cutting-edge UPS and energy storage solutions for smarter energy control.

BATTERY SOLUTIONS:

SEALED LEAD ACID

We offer a comprehensive range of SLA batteries, with each series specifically engineered to get the best out of your application.

LITHIUM IRON PHOSPHATE

Our LifePO4 batteries are the ideal solution to very demanding applications that require a light weight and higher capacity battery.

LITHIUM BLUETOOTH®

Combining proven lithium technology with an intelligent battery management system and Bluetooth® connectivity, gives you a battery that lasts longer and can be monitored with a smart phone or tablet.

POWERSPORT

A complete line of powersport batteries including lithium, AGM, AGM ready to go and conventional types to meet all your powersport needs.

CHARGERS

Our range of battery chargers have been engineered for efficiency and reliability. All our chargers meet worldwide safety standards.

UPS SOLUTIONS

Our extensive range of UPS systems have been designed and manufactured to deliver energy efficient and cost-effective power protection that eliminates disruptive and costly downtime. Our range includes line interactive, online and modular UPS.

BATTERY ENERGY STORAGE SYSTEMS

The Battery Energy Storage System (BESS) is a fully integrated, high performance energy storage solution for medium and high voltage grid connection. The BESS offers customers a diverse range of innovative energy storage solutions to maximize on-site clean, reliable power and energy savings.

We are constantly developing new products to set the pace within a rapidly changing industry. The continuous improvement of our engineering processes allows us to develop products with better value and superior performance.

JAYACHANDRAN INDUSTRIES (P) LTD
ISO 9001 • ISO 14001 • OHSAS 18001

About Us

BATTERIES

- JAYACHANDRAN INDUSTRIES PRIVATE LIMITED is an **ISO 9001** (Quality Management System), **ISO 14001** (Environment Management System) & **BS OHSAS 18001** (Occupational Health & Safety Management System) certified company and one of the fastest growing manufacturers of Automotive Batteries, Flat plate Inverter Batteries, Tubular Batteries & SMF VRLA Batteries.
- The well built facility is located in Coimbatore, Tamilnadu State, INDIA and is geared to scale up production operations to meet the ever growing demand of its products.
- The Management team of JC has more than 25 years experience in Lead & Battery industry. Our experience in trading lead acid batteries for more than 2 decades has led us to create a strong dealer network in South India. We are also one of the top leading manufacturers in India for lead alloys & lead oxides, which are the primary raw material for any lead acid battery.
- The knowledge we have gained in battery trading, the confidence in our dealer network & the strength of our own high quality raw material (lead) production gave us the drive to commence our own battery manufacturing company in the year 2009.

Our Journey

First Lead smelting company,

units.

CERTIFICATIONS & TESTING STANDARDS

CERTIFICATIONS

- ISO 9001 (Quality) ISO 14001(Environment) & BS OHSAS 18001 (Health/Safety).
- APPROVED BY TNPCB (Tamilnadu Pollution Control Board).
- Tubular Batteries are approved by Following bodies:
 - CECRI (Central Electrochemical Research Institute, Karaikudi)
 - MNRE (Ministry of New & Renewable Energy).
- E-rickshaw Batteries are certified by ARAI.

TESTING STANDARDS

- Elemental composition in Pure lead/lead alloys are detected using Optical Emission Spectrometer (O.E.S) & in lead oxides are detected using Atomic Absorption Spectrometer (A.A.S).
- Automotive Batteries are tested as per Indian IS 14257 & Japanese JIS D 5301 Standards.
- Flat Plate Inverter Batteries are tested as per IS 6304 standards.
- Tubular Batteries are tested as per IS 13369 Standards.
- Solar Batteries are tested as per IS 13369 & IEC 61427 Standards.
- SMF VRLA batteries are tested as per JIS C 8702 standards.
- E-rickshaw Batteries are tested AIS-048 standards

BATTERIES

PRODUCTS	APPLICATIONS
Automotive Batteries (Force, Cruize, Drive & Race Series)	Passenger Vehicles, Commercial vehicles & Diesel Generators.
UPS/Inverter Batteries (Mass Series)	Domestic UPS & Inverter.
Tubular Batteries (Red, Blue & Green Series)	Domestic UPS, Online UPS, Inverters & Solar.
SMF VRLA Batteries	Weighing Scales, Emergency Lights & Online UPS
E-rickshaw Batteries	Electric Rickshaw Vehicles

CUSTOMERS

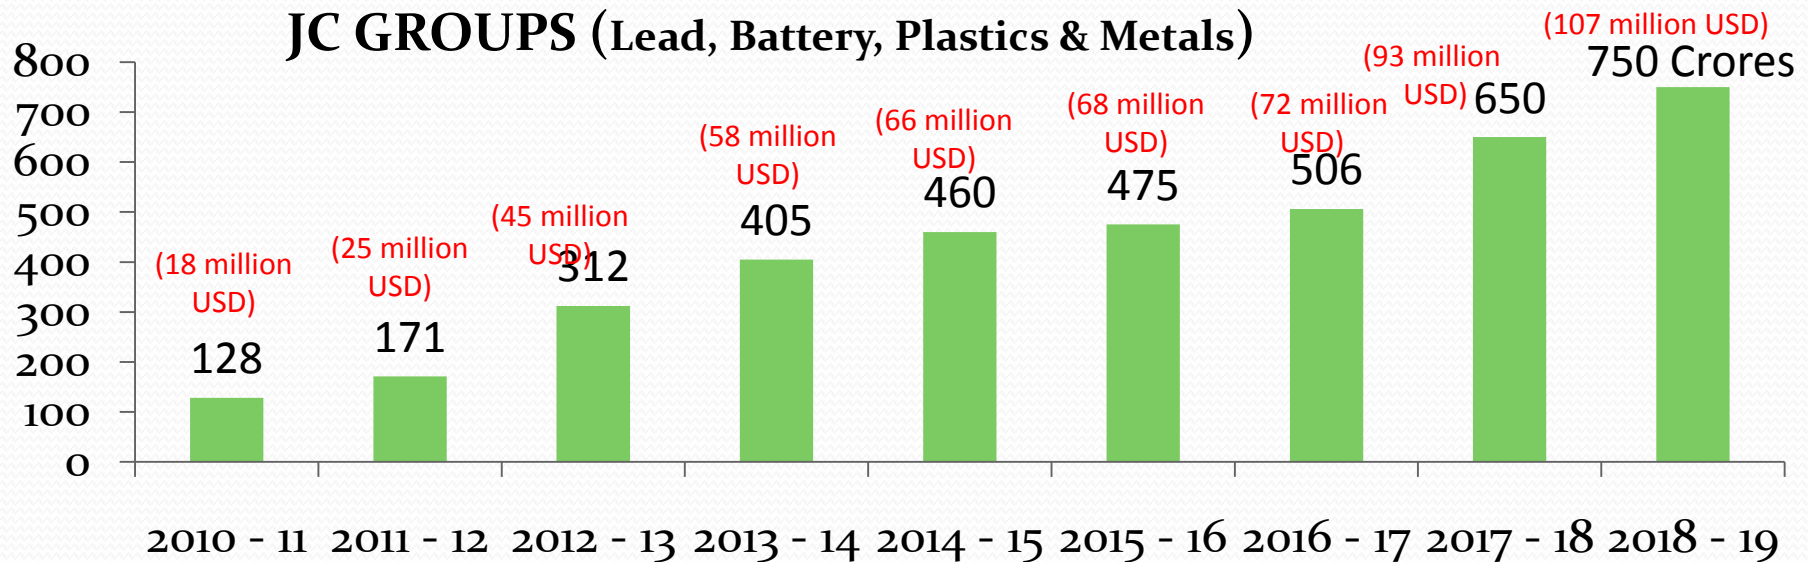

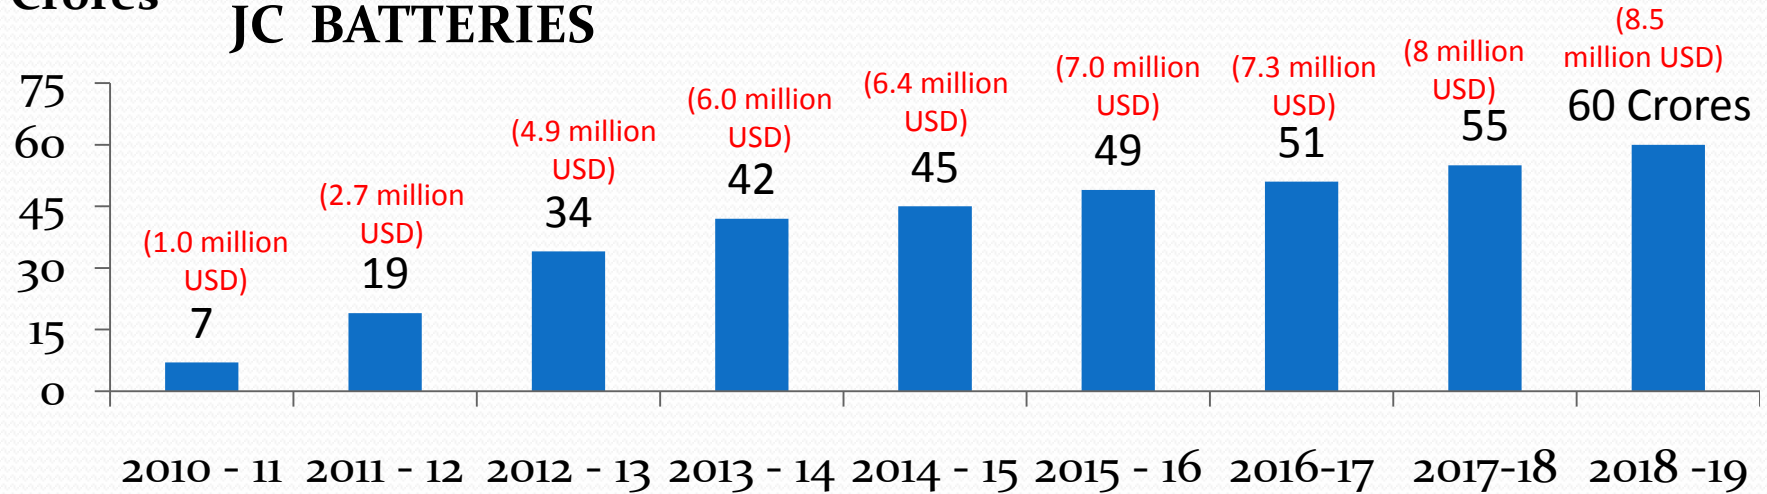

- Channel Sales Retail Market:
 - 25 Distributors & more than 1000 dealers in South India
- Direct supply to UPS OEMS, SOLAR OEMS, PRIVATE & GOVT SECTORS in India.
- Private labeling to major brand players domestically and globally.
- Exporting batteries to Asian, Middle East & African Countries.

SALES TURNOVER

Crores

JC BATTERIES

Fiscal Year

MAIN STRENGTHS OF JC BATTERIES

- JC batteries was launched in the year 2009. Product has good quality track record in the market since launch (About 10 years).
- JC groups has 25 years experience in battery trading & servicing (operating about 10 branches in South India.)
- JC Groups has more than 25 years experience in lead alloy & oxides manufacturing. (About 4000 Tonnes/month = 300000 batteries/month (Ref: 12V - 100Ah Automotive battery). Lead alloys & oxides are the major raw material used in any lead acid battery. We have proven quality track record of supplying raw materials to the top leading battery manufacturers in India & other countries.
- Qualified Administrative team, Highly skilled Technical team & Technical consultants with Ph.Ds in electrochemistry.
- Fully equipped electrical & Chemical lab to test batteries as per Indian & International standards. (IS 14257, JIS 5301, DIN, IS 13369, IEC 61427, JIS C 8702, AIS 048 Standards etc.,)
- Above All. We follow very strong business ethics.

Service

La tua energia, da oltre 30 anni.

Your energy, for over 30 years.

www.sielups.com

SiEL
ENERGY & SAFETY

Assistenza Service

Acquistare un prodotto SIEL significa circondarsi di una squadra pronta a seguire e proteggere il tuo investimento.

Dall'installazione alla manutenzione ordinaria, dall'assistenza telefonica al pronto intervento sul posto, il personale tecnico sempre aggiornato è in grado di supportare la tua attività con l'efficacia straordinaria di chi mette energia nel suo lavoro.

Le visite periodiche e l'accuratezza nel controllo dei prodotti rendono il tuo investimento sicuro e affidabile: priorità per la squadra del Service SIEL, che custodisce nelle sue mani oltre 30 anni di esperienza nel settore.

Il Service SIEL lavora a 360° per garantirti i migliori risultati e portare la serenità nella tua gestione quotidiana.

Buying a SIEL product means being surrounded by a team ready to follow and protect your investment.

From installation to maintenance, from telephone assistance to emergency interventions on site thanks to the constantly updated of technical personnel, SIEL's staff is able to support your business with the effectiveness of those who put energy into their work.

Regular maintenance visits and the attention on products checking will maintain safe and reliable your investment, priority for SIEL's Service team which preserves in its hands more than 30 years of experience in the field.

SIEL's Service works at 360° in order to guarantee the best results and convey serenity into your daily management.

Una rete di professionisti formati per assisterti ovunque e in ogni momento, 24h/24h, 365 giorni all'anno senza eccezioni perché SIEL conosce il valore di un intervento rapido e tempestivo, e la soddisfazione del cliente.

Un numero verde con personale sempre disponibile, in grado di rispondere prontamente alle tue domande e di supportarti con servizi costruiti su misura per te.

L' avanzato software di monitoraggio Tele Global Service, permette di abbattere ogni distanza tenendoti costantemente aggiornato, anche a migliaia di chilometri.

A network of trained professionals to assist you anywhere and anytime, 24h / 24, 365 days a year, without exceptions: because SIEL knows the value of a rapid and timely intervention, of customer satisfaction and of human support able to find the most appropriate solutions for you and your company.

A toll free telephone number with staff always available, able to answer promptly to your questions and support you with tailor-made services.

The advanced monitoring software named Tele Global Service, permits to overcome distances keeping you constantly updated, even thousands of kilometers away.
